Job Opportunities

Pesticide handlers, sprayers, and applicators are responsible for correctly mixing pesticides, herbicides, or insect sprays and repellents for application on lawns, landscapes, crop fields, and pastures. These professionals are highly trained and certified and know how to safely and efficiently use appropriate application equipment. They are able to identify areas requiring treatment. They manage the transportation of equipment and chemicals to and from the treatment site.

About Skyland Grain

Skyland Grain LLC is headquartered in Johnson, Kansas and began operation August 1, 2004 with Johnson Cooperative Grain Co. and ADM Grain Co. as the founding parent companies. Since then others have also become part of the joint venture.

Skyland Grain LLC operates eight grain elevators in Kansas and three in Colorado. Cairo Cooperative Equity Exchange has been serving member producers in grain, fertilizer, seed, and fuel in nine locations across South Central Kansas for 100 years.

By combining Cairo Cooperative Equity Exchange's nine grain elevators with Skyland Grain's eleven, they combine for a total licensed grain storage capacity of approximately 41 million bushels. Additionally, Skyland Grain LLC has a full-service agronomy division that provides bulk liquid, dry, and anhydrous ammonia fertilizers, chemicals, and seed. They also provide fuel services through Southwest Kansas Cooperative Services LLC.
